

Family Information Session

The “Administering the Diagnostic at Home” session is designed to help families engage with *i-Ready* to support their students at home. Families will deepen their understanding of *i-Ready* and its core components, and develop an understanding of how the Diagnostic works and how their children will engage with the assessment. We will take families through an exploration of the resources that are available to them to support their students during the Diagnostic and beyond.

Thursday, September 3rd: 7:00-8:00 P.M.

or

Thursday, September 10th: 4:00-5:00 P.M.
